

The 21st International Symposium on Communications and Information Technologies

Xi'an, China | September 27-30, 2022

The 21st International Symposium on Communications and Information Technologies (ISCIT 2022) will be held in Xi'an, China during September 27-30, 2022.

ISCIT is a serial event that addressing researchers and industries from all areas of communications and information technologies. It provides an international forum for the exchange between those fields, to present advances in the state of the art, identify emerging research topics, and together define the future of these exciting research domains.

Publication

Submitted paper will be peer reviewed by conference committees, and accepted papers will be included in ISCIT 2022 Conference Proceedings which will be archived in IEEE Xplore and be submitted for indexing to Scopus and Ei Compendex.

ISCIT 2022 is listed in [IEEE official conference calendar](#)

History: <http://www.iscit2022.org.cn/history.html>

Submission

1. Full paper (Presentation & Publication)
2. Abstract (Presentation only)

Submission system:

<http://www.easychair.org/conferences/?conf=iscit2022>

Full paper template:

<http://www.iscit2022.org.cn/instruct8.5x11x2.doc> (Doc. Version)

<http://www.iscit2022.org.cn/ieee-conference-latex-template.zip> (LaTeX Version)

Important Dates

Regular Submission: May 1, 2022

Notification date: June 1, 2022

Registration deadline: June 15, 2022

Call for Special Session

ISCIT 2022 features a series of Special Sessions for new and emerging research topics.

Proposals will be reviewed by the special session committee based on relevance, innovation, content, and quality. All papers submitted to the Special Sessions will go through, similar to the same review process as regular papers.

Deadline for Special Session Proposal: April 1, 2022

If you intend to propose and organize a special session, please contact via: iscit_conf@outlook.com

PATRONS:

Topics

The topics for regular and special sessions include, but are not limited to, the followings:

Track 1: Circuits and Systems

Circuits and Systems for Communications
IoT, Wearable Devices
Analogue and Mixed Signal Processing...

Track 2: Wireless Communications

MIMO, Multi-user MIMO, and Massive MIMO
Interference Alignment and Cancellation
Heterogeneous and Small-Sell Networks...

Track 3: Next-Generation Networking

Software Defined Networking (SDN)
Network Function Virtualization (NFV)
Data Center and Cloud-based Networking...

Track 4: Computational Intelligence, Data Science & AI

Fuzzy Logic
Neural Networks
Evolutionary Computation...

Track 5: Wireless Networking & Internet of Things

Cellular Systems, 4G/5G and Beyond
WLAN, Mesh, and Vehicular networks
Spectrum Sharing and Management...
